

Pregnancy timeline

Every date from the one you count from. Fill in the dates once, and tick each step as it is done.

Dam

Litter ID

Anchor date

Anchor is the ☐ Ovulation date (due day 63) ☐ LH surge (due day 65) ☐ Breeding date (due day 58 to 72)

Timeline

Day	Milestone	What it is for	Date	Done
0	Anchor date	Ovulation, LH surge or first breeding		☐
21	Confirm the pregnancy	Relaxin blood test, days 21 to 25		☐
28	Scan	Ultrasound: viability and heartbeats		☐
42 to 48	Step her food up	Puppy or performance food as demand climbs		☐
45	Box in, supplies in	Two weeks for her to accept the box as hers		☐
55	X-ray for the count	The count you order supplies against		☐
58	Temperature watch opens	Twice a day, same thermometer, written down		☐
63	Due	From ovulation, give or take two days		☐
66	Call your vet	No labor by now is a conversation, not a wait		☐

Do not give calcium during pregnancy: it raises the risk of eclampsia. Use it only at whelping and during nursing, as your vet directs.

Notes
